- B. IL Waterway Clean-Up Week Sept. 9-15 -- Information vague and contacts focused elsewhere
- C. Commission response to resident reports -- 1001 Edward Road homeowners in attendance after receiving our mailing. They are concerned about erosion on their property because the creek runs about 30 feet from their home. Large woody debris is also a concern; a tree and several large limbs fell in the creek in the past week. We referred them to Public Works for smaller debris problems and MWRD for larger debris.
