Help the City and our local partners in spreading the word "Everyone Counts in Prospect Heights!" to get a complete and accurate count of all Prospect Heights residents.

The City's official population is determined by the census and the number of residents in Prospect Heights directly affects the City's share of **over \$675,000,000,000 in Federal funds!**

Each person missed on the census is equal to the City losing the value of over \$1,000 annually in state and federal funding which means unless we all participate in the Census, the City could lose the value of millions of dollars over the next ten years.
