

The COVID-19 Vaccination Program will require a phased approach

- 1a – Health care workers, beginning with hospital based, highest risk of exposure
- 1a – Long-term care facility (LTCF) staff and residents
- 1a – Unaffiliated healthcare workers including EMS personnel
- 1b – (ACIP recommendations pending) Essential workers, including first responders, corrections officers, education sector, food and agriculture, utilities, transportation
- 1c – (ACIP recommendations pending) High risk adults
- Phase 1b: Other essential workers and people at higher risk of COVID-19 illness, including people

Expand the vaccination strategy to provide COVID-19 vaccine in a manner that allows for equal access to the vaccine to:

- Phase 1 critical population members who were not vaccinated in Phase 1
- Remaining critical population groups
- General population
